

Instruction manual: confirming clinical information by moderator

- Go to <http://humandiseasegenes.nl/admin>
- Please log in with your email address and password (you have received this password from us by email)
- A list of all the gene-websites and its clinical forms you are moderating appears.

setbp1geneschinzelgiedionsyndrome	41	8	0	0	 Statistics	 Filled in forms
setbp1 related developmental delay	6	1	0	0	 Statistics	 Filled in forms

- When you select one of these websites, by clicking the red button on the right, a list of the filled in forms will be visible.

setbp1geneschinzelgiedionsyndrome	41	8	0	0	 Statistics	 Filled in forms
setbp1 related developmental delay	6	1	0	0	 Statistics	 Filled in forms

The filled in forms can have 4 stages:

Open: form filled in by physicians on the website but not confirmed yet.

Confirmed: form confirmed by physician. After confirmation by physician the moderator of the website receives an email to approve or reject the filled in clinical form.

Approved: filled in form approved by moderator. Visible on the website under graph and chart.

Rejected: filled in form rejected by moderator, not visible on website. Using the physician's contact information the moderator could ask the physician for extra information on the filled in form.

- As a moderator you only have to check the confirmed forms. Select 'confirmed' at the top to show all confirmed forms.
